-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 December 2004.
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

5) ☐ Notice of Informal Patent Application (PTO-152)
6) ☐ Other: _____.

DETAILED ACTION

Claim Objections

1. Claims 23 and 24 are objected to because of the following informalities: both claims depend from canceled claim 10. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 26 and 27 are rejected under 35 U.S.C. 102(e) as being anticipated by Rosen (U. S. PAT. 6,549,039).

In claim 26, Rosen teaches all claimed features in Fig. 4, a buffer circuit having at least an input terminal (B) and an output terminal (44); said buffer circuit further comprising: a pair of transistors (34, 36) connected to said output terminal, respectively pulling up and pulling down said output terminal based on the input signal received at said input terminal; a control circuit (30, 32), receiving at least said input signal (clock input) for controlling to cause one transistor of said paired transistors which is turned on based on said input signal to be in an off state at least at a beginning of a transition of other transistor of said paired transistors switching from an off state to an on state according to a transition of said input signal (operation of circuit in Fig. 4).

Art Unit: 2819

Claim 27 (original): A buffer circuit according to claim 26, further comprising a circuit for setting and holding (38, 40) an output signal (44) at said output terminal to a logic value which corresponds to a logic value at the output terminal immediately before said one transistor is caused to be turned off, during when said paired transistors are both off.

4. Claims 6-9, 11-22 and 25 appear to comprise allowable subject matters.

Response to Arguments

5. There is no response regarding rejected claims 26 and 27. Thus, the rejection of claims 26 and 27 under 35 U.S.C. 102(e) as being anticipated by Rosen is maintained .

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
